NEW SELECT CABINET PULL SIZES

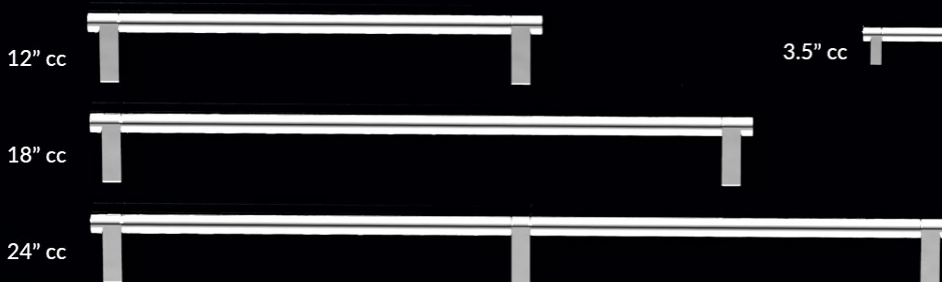

Our popular Select Cabinet Pulls are now available in 16", 20" and 24" extended sizes, offering a sleek and contemporary look. These new offerings extend the existing Select Cabinet Pull sizes with the use of a third base, and coordinate with the look of our longer Appliance Pulls.

Their elongated shape benefits both design and function as longer cabinet pulls create a visually appealing, minimal aesthetic while simultaneously providing a larger surface area to grip, making them more ergonomic and comfortable to use. Make a design impact in your home with Select Extended Length Cabinet Pulls, available in seven finishes.
