

FALL 2019 ONE ROOM CHALLENGE RECAP: UNDECORATED HOME

It's been a couple of months since the [Fall 2019 One Room Challenge](#) officially ended, but we're still not over these jaw-dropping renovations! We were so blown away by the season's transformations, we just have to keep showing them off. So sit back and enjoy while we look back at these iconic spaces:

First up in our blog series of One Room Challenge recaps is [Megan of Undecorated Home](#). She completely reinvented her daughter's bathroom, which doubles as a guest bathroom. She started out with a space that used to be a source of insecurity...

...Then, fast-forward six weeks, one covered up door, one closet removed, re-tiling, and a whole lot of interior design magic later... and voila!

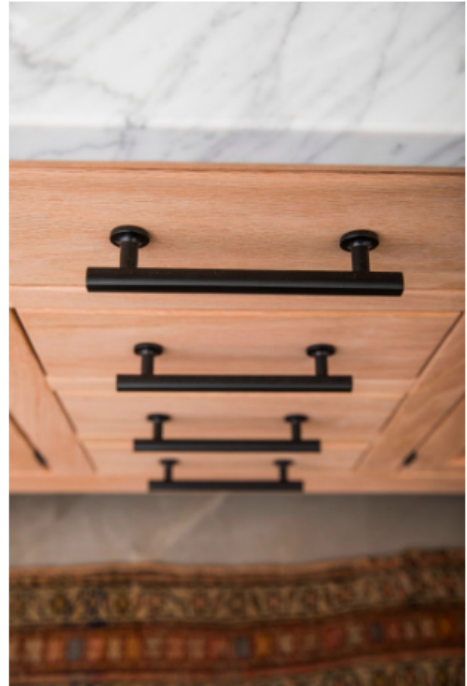

A new and improved bathroom from interior design heaven! Megan simultaneously added so much to this space while also making this space feel significantly bigger and brighter.

Megan also integrated a double vanity, new lighting fixtures, and a transom window to boot! However, the part that we're most excited about is the hardware, of course. In this case, we are especially thrilled because this bathroom is completely decked out in **Emtek hardware**!

Greeting you at the entrance is none other than **Emtek's Round Knob with Modern Rosette in Flat Black**. A grand entrance isn't really *grand* without Emtek, am I right?

Next in your line of sight as you step into Megan's bathroom is the vanity, which displays Emtex's [Cadet Cabinet Knobs](#) and [Freestone Cabinet Pulls](#) both in Flat Black. Functional *and* aesthetically pleasing.

Then, immediately to the right are Emtex's [Modern Brass Double Hooks in Flat Black](#). Why just hang your towels when you can do it in style, you know? Same goes for our [Modern Brass Towel Bar](#)! No detail can be spared!

Finally, the MVP of this room is, of course, our [Modern Brass Paper Holder in Flat Black](#). Where would we be without this indispensable piece of hardware?

There you have it! [Undecorated Home's](#) bathroom renovation is truly an Emtex wonderland. For more door, cabinet, and bath hardware inspiration and technical information visit [emtek.com](#). Be sure to keep an eye out for the newest season of the [One Room Challenge](#) coming soon!
