

SPRING 2020 ONE ROOM CHALLENGE HIGHLIGHTS

2020 has been anything but ordinary and the [One Room Challenge](#) is no exception to that. When the featured and guest participants alike signed on for the 6-week challenge, little did they know the rollercoaster of an experience they were in for.

From a delay in commencement, to COVID related shipping delays and restrictions, to navigating weeks of social unrest, these interior designers displayed an abundance of flexibility and grace as they made their way towards the finish line. After 8 long weeks, the results are in and they were definitely worth the wait! Below are a few of the participants that we've selected to highlight:

Dwell by Cheryl

First up is [Cheryl Luckett](#) of [Dwell by Cheryl Interiors](#). Cheryl revealed a revitalized and colorful kitchen that we absolutely love. In her own words, "[I feel like I live at Disney World. For me this is the HAPPIEST place on earth.](#)" Which makes us all the more glad to have played a role in her kitchen transformation. [Pictured below is Emtek's Melon Knob in Satin Brass:](#)

Clark + Aldine

Featured: Round Knob in Satin Brass & 6" Flush Bolt | **Credit:** Clark + Aldine

Danielle and Michael of Clark + Aldine are super stars! They tackled their first floor open concept kitchen and dining space and the end result is spectacular. The french doors that lead to their office features Emtek's Round Knob with Modern Rectangular Rosette in Satin Brass as well as the 6" Flush Bolt in French Antique.

Design Maze

Tim Lam of Design Maze really blew it out of the ball park with his open concept kitchen and living room makeover. He created a soothing and tranquil modern space topped off with Emtek's Helios Lever and Cabinet Edge Pull both in Flat Black which contrasts beautifully with the neutral colors throughout the space. Also, who wouldn't mind that incredible view?

Coco & Jack

Steve and Alyssa Terpstra of [Coco & Jack](#), yet another dynamic duo, placed Emtek hardware throughout their master bedroom renovation. Starting with their closet space they utilized Emtek's [Cabinet Egg Knobs](#) and [Traditional Brass Robe Hooks](#) in Unlacquered Brass. In their bathroom they creatively used another [Cabinet Egg Knob](#) to DIY their shower door! We are beyond impressed.

Other products used throughout the space include the [Modern Brass Towel Bar](#), the [Modern Brass Paper Holder](#), and the [Modern Non-Keyed 9" Lockset](#) with [Round Knob](#) in Flat Black.

This season of the One Room Challenge was definitely one for the books! We congratulate everyone who participated and look forward to seeing their work circulating the web.

Seeing Emtek hardware out in the world bringing joy into people's lives is always a delight. So if you spotted an Emtek item that you love or want to further explore our catalog head on over to [Emtek.com](#) for additional information on where you can purchase our hardware. We hope that you'll consider Emtek for your next big renovation!
